Tel: (503) 224-3400

Friday-Saturday, January 13-14, 2012

James Graebner	Chair
Tom Hickey	Vice Chair
Tim Borchers	Secretary

FRIDAY AGENDA (8AM – 5PM)

- | | |
|--|---|
| 1. Welcome & Introductions | Jim Graebner |
| 2. Project updates from around the country | All |
| 3. Two “off wire” system case studies St. Louis and Seattle
Both were originally planned to use off-wire capable vehicles. St. Louis has now opted not to not use this design and the Seattle project decided to go for it. The presentations will discuss the how and why of the decision-making process. | Tim Borchers plus a representative from the Seattle project (invited) |
| 4. Power Supply Chapter in the APTA Streetcar Guideline | John Smatlak |
| 5. FTA and streetcar projects
The latest information on FTA process issues, and discussion of suggestion for survey of streetcar projects examining institutional structure, technical decision-making capacity, and integration with existing transit system(s), MPO and FTA grantee status. | Paul Grether and FTA representative (invited) |
